Report of Building Inspector

GORHAM, MAINE, FEB. 14, 1914.

To the Selectmen of Gorham:

GENTLEMEN:—I have, as required by law, inspected the chimneys in the thickly settled parts of Gorham. I found them nearly all safe. Those that were not, I ordered made safe.

Respectfully submitted,

HOWARD B. CLOUDMAN,

Building Inspector.

The foregoing accounts of the treasurer and collector, have been examined by us and found correct.

JOHN L. ALDEN,
CHARLES A. HAYES,
H. GREELEY PARKER,

Selectmen of Gorham Maine.

Auditor's Report

I hereby certify that I have examined the accounts of the Selectmen, and the Treasurer and Collector of the town of Gorham for the year ending February 14th, 1914.

The detailed accounts of the office have been carefully examined as to their clerical accuracy. All payments have been compared with the orders drawn and entries for the same, footings verified, and the summary of the year's cash transactions as shown by the Treasurer's report found correct.

The Treasurer's bond has been submitted and found to be in order.

The cash balance of $12,390.77, to the credit of the town, as shown by the First National bank of Portland and the several cash items in the office has been verified and found to agree with the books of the treasurer.

Respectfully submitted,

CHARLES E. COBB,

Auditor.

Respectfully submitted,

JOHN A. HINKLEY,

Treasurer of Trustees.

Gorham, Feb. 14, 1914.

Report of the Librarian

From Feb. 1st, 1913, to Jan. 31st, 1914, inclusive, the library was open 281 afternoons and 48 Saturday evenings.

On April 3d, work was suspended until after the burial of the late Mrs. Katherine B. Lewis, out of respect to the memory of Gorham's lamented historian.

For 23 days in July and August, while repairs were being made, the library was necessarily closed.

The number of application cards signed during the year is 151, of which 70 were non-resident students' cards.

Total number of registrations to date, 1,778
Number of books accessioned 444, of which

257	were obtained by	purchase
31	"	binding
2	"	exchange
127	"	gift
27	"	deposit

Of the books purchased :

One, costing $1.34, was from Miss M. P. Waterman fund
89, costing $134.47, were from state stipend
167, costing $164.48, were from town appropriation
5 books charged out were burned or lost
3 books given back to donor
7 books withdrawn from circulation

The librarian regrets to state that a number of books are not to be accounted for, and fears that some of these may have been stolen.

The accession book contains record of 8,150 volumes.

There have been sent to the Little Falls library during the year, 223 books and a state traveling library of 50 volumes; to the Frederick Robie school, 71 books; to the North Gorham library, 126 books and 50 volumes from state; to North street Ladies' Aid, 29 books.

To the latter our own books this year have proved far more acceptable than the state library sent last year, as their circulation (for about four months) shows. And the appreciation which these ladies have expressed suggests the question: Are there not other communities ready to take advantage, in a similar way, of the privileges of this library?

The circulation of the main library for the year was:

Fiction, 10,730; non-fiction, 3,836; total	14,566
Little Falls branch, including Fred'k Robie school	1,022
North Gorham branch	512
North street Ladies' Aid	111
Total	16,211

Taking into account the fact that the main library was closed about four weeks, the figures are very satisfactory.

The Librarian's cash account is as follows:

Balance on hand Feb. 1, 1913	$ 3 71
Received for subscriptions	1 10
Book loss	1 50
Fines collected	45 39
	$51 70
Paid to treasurer of trustees	46 97
Balance on hand, Jan. 31, 1914	$ 4 73

Miss Magnusson reports desk receipts at Little Falls	$ 3 15
Miss Fox has collected at Fred'k Robie school	14
Miss Thomas reports net receipts at No. Gorham, including balance on hand, February, 1913	3 84

Most fortunately, as the growing needs of the reference department call for a larger expenditure than town and state money have thus far been able to meet, the income of the John R. Cressey fund has become available to the Gorham Library association.

The first instalment of books from that source has been donated the past year, giving us the Century Dictionary in 12 volumes, together with 6 volumes of Town and County History and Biography, and 15 bound volumes of the early St. Nicholas Magazines—a very welcome and valuable addition to the library, for which we are very grateful.

Other friends have continued to remember us generously with gifts, to all of whom we desire to express our gratitude and to return sincere thanks.

A list of the donors is appended, the gifts being books, periodicals or pamphlets, unless otherwise indicated.

During the summer the much needed repairs of the Library building were made. Inside, the plastering was patched, walls repainted or retinted, floors varnished two coats, and the quartered oak book cases in the two reading-rooms extended. Outside, two coats of paint were given the building, stone work pointed, roof repaired and painted. Funds have been left for additional work another season, for notwithstanding all that has been done, the projecting wall which separates two portions of the tin roof, and the tin roof itself, are not yet in a perfectly satisfactory condition.

To partially meet further needs of the library, two new movable book cases were purchased and additional chairs bought. Curtains also were provided for the hall, and three wooden stacks taken from the basement repaired, and placed in the hall. These are now filled with public documents and other books for which there is but occasional call. Several hundred similar books and volumes of magazines still remain unshelved.

Respectfully submitted,

JOHN A. HINKLEY,

Librarian.

Baxter Museum

Report of the Baxter Museum Committee

The Baxter Museum was opened to the public, for its fifth season, on July 2nd, and thereafter on Wednesday and Saturday afternoons during the summer months.

At the annual meeting of the committee Charles W. Harding was elected chairman, the office having been made vacant by the death of Lewis McLellan.

The collection of valuable and interesting articles has been enlarged by numerous gifts and loans, noticable among them being the chair once the property of Rev. Thaddeus Pomroy, presented by Miss Elizabeth Bailey, of High street.

The new system of guides has proved very satisfactory, and post cards and hand colored photographs have been on sale.

The financial statement is to be found in the report of the town treasurer, Charles W. Harding.

Respectfully submitted,

MARY L. McLELLAN,

Secretary Baxter Museum Committee.

School Report

To the Citizens of Gorham:

Your School Committee for the past year submits the following report:

Most of the school buildings are in good repair. In the High school slate boards have been placed in one room and minor repairs done. More slate is needed, the main room should be calcimined and the tower should be repaired.

At the Robie school the grading, which was begun last year, has been finished and the appearance of these large grounds has been much improved. A new floor is very much needed in the primary room.

The Fort Hill and Babb schoolhouses have been painted and the Blake schoolhouse has been put in good condition inside and out. A flag has been purchased for the Blake school. The interior of the Elmwood has been calcimined and varnished.

The Levi Hall schoolhouse has been painted, the roof of the entrance repaired and new steps have been built.

We feel that a word should be said in praise of the care which the pupils of the High School have taken of the school grounds. It is a pleasure to feel that our boys and girls are showing the true spirit of good citizenship.

We wish to acknowledge the kindness of the Elizabeth Wadsworth Chapter, D. A. R., of Portland in presenting two framed copies of the Declaration of Independence. Through the courtesy of Mrs. Fred A. Giddings and Mrs. Elmer A. Black one was presented to the West Gorham school and the other to the Frederick Robie school.

The year's work as reported by the superintendent, Mr. Keyes, has the approval of your committee.

We recommend the following appropriations for the coming year:

Common schools	$2,000 00
High school	2,800 00
Books	300 00
Supplies and repairs	1,000 00
Manual training	50 00
Superintendent	308 33
Tuitions	350 00

Respectfully submitted,

ROSE C. JOHNSON,
JOSEPH W. KNIGHT,
EDGAR F. CARSWELL,

Superintending School Committee.

Report of the

Superintendent of Schools

To the Citizens of Gorham;

I have the honor to submit for your consideration my sixth annual report as superintendent of the public schools of this town.

THE ATTENDANCE

The average attendance for the last year, as given by the teachers in their reports to your superintendent, has been better than for several years. In some schools the regularity of attendance has been worthy of remark, so few pupils have found it necessary to be absent. It seems to us that the attendance is often an index to the quality of the school. The teachers can do much to secure regular attendance. Interested pupils will make a strong effort to attend school regularly, and they are not those who grasp the slightest excuses to remain at home.

But often the pupil's good interest in his studies are overcome by parents who think they need his help at home, and who can see more real value in the labor that the child can perform, than in what he can accomplish at school. There have been a few such cases reported to us by teachers the past year, and of course the pupils have fallen behind in their studies, where this practice has been followed.

When we consider the pace set for pupils in the schools of today, necessary to complete the required work in a given time, it becomes apparent that an

absence of even a few days is a direct loss to the child. There are cases, however, when sickness compels children to remain at home. Under such circumstances, no one seems to be at fault ; yet, pupils long absent, even on account of sickness, cannot meet the requirements of the school. To keep healthy pupils out of school and thus cause them to lose interest in their work and fall behind in their classes seems too great an offense to be passed without remark.

CONTAGIOUS DISEASES

The schools have been somewhat disturbed this year by the outbreak of a contagious disease. While no pupils were found sick in school, yet it seemed advisable to close the schools for a while to watch the developments and to fumigate the rooms. Those children afflicted soon recovered and in due time returned to their studies.

These schools were closed for one week each, and arrangements were made for the lost time to be made up during the vacation.

BOOKS

The schools of Gorham are very well supplied with textbooks. No changes have been made during the past year except in spelling books for pupils in the village schools.

For the High school a new French text and a new work on English Literature have been supplied.

In many of the schools the badly worn books have been replaced by new ones. From the table found in this report, giving the number of pupils attending for fall terms for the last six years, it will be seen that the total enrollment in all schools have been approximately 500 for each year.

The appropriation voted for textbooks each year has been $500, or enough to make, with the balance unexpended, this amount. Thus we can readily estimate what the average cost has been for pupils for each year of the series. When the average cost per pupil for books can be kept down to one dollar per year and still have the schools well supplied, the expenditure should not seem excessive.

TEACHERS

At the close of the summer term four teachers tendered their resignations, Miss Edith M. Pitts, who had taught successfully the "Model Rural School" at West Gorham, since it was opened in 1909, decided to make a change in her work. She was succeeded by Miss Marjorie M. Blanchard of Sanford, Me. Miss Geneva Pike, who had served three years as teacher at the Fort Hill school, was succeeded by Miss Blanche Libby of this town. Miss Libby had taught the Elmwood school for five years. Miss Margaret True, at the Wescott school, was succeeded by Miss Louise Libby of Gorham. Miss Grace L. Gordon was transferred to the Elmwood school from the Longfellow, where she had held the position for nearly five years. Miss Nellie Gustin of Gorham was chosen teacher for the Longfellow school.

Miss Maude G. Parsons, who had taught eighth and ninth grades for several years in the Village school, was succeeded by Miss Lula M. Buker, who came to us from the schools of Augusta, Me. Late in the summer Miss Elsie A. Salthouse, teacher of French and English in the High school, requested a release that she might accept a position in Massachusetts paying a larger salary. The release was granted and Miss Margaret Lincoln of Cohasset, Mass., was selected to fill the vacancy. Miss Lincoln is a graduate of Boston University and has had experience in teaching.

Notwithstanding the several changes made in the corps of teachers at the beginning of the school year, we feel confident that the year's work will show conclusively that the schools have not retrograded by reason of these changes.

WHITE ROCK SCHOOL

At the beginning of the spring term in 1913 a change was made in this school. For several years two teachers had been employed, one for the more advanced pupils and one for the lower grades. The decrease in the number of pupils attending made it possible for one to do the work, and Mrs. Luetta Hamlin was chosen teacher of this school. Mrs. Hamlin's long experience in schools like this and her success as a teacher well fitted her for the position.

BABB SCHOOL

This school has been maintained throughout the year by the towns of Gorham, Buxton and Scarboro. By an agreement entered into last year by the school committees of these towns, whereby the expense of this school was to be borne by three towns in proportion to the number of pupils attending from each, the school has been kept open. The number of pupils registered is thirteen. Five are from Buxton, four from Scarboro, and four reside in Gorham. Miss Helen Reny, the teacher, is serving her fourth year here.

LONGFELLOW SCHOOL

In my report last year I called your attention to this school building which is so remote from the center of the school population in this section of the town.

At the opening of the fall term we were requested to provide transportation for twelve pupils, residing

more than one mile and one-half from schoolhouse, and under twelve years of age.

Several men were interviewed and bids for the work were received. The bids ranged from $12 to $7 per week, and Mr. N. P. Neilson, being the lowest bidder, was given the work to do. He has provided a very comfortable carriage for the children, and they are well protected from the cold winds and storms. The cost per week is $7. The cost per year at this rate will be $250. If these pupils are transported for a number of years the cost to the town will be considerable. We are inclined to think that something should be done to bring this school property nearer to the homes of the pupils who are now being transported. Since writing my last report we have given this matter much careful thought, and while conditions cannot be made ideal, it seems to your superintendent that a location near the junction of the New Portland road with the road leading to the pumping station, would convene more pupils than does the present one.

THE HIGH SCHOOL

The High school should have more room for work in the sciences. Twenty years ago, probably, the provision now made would have seemed adequate for a school numbering less than 100 pupils. When we consider the advances that have been made in the requirements of laboratory science in standard high schools, it becomes at once imperative that better provision be made for laboratory work in the Gorham High school. This is not so much a matter of needed apparatus as it is a suitable place in which to use the apparatus already at hand. If a science building could be erected on the rear of the High school lot and adjacent to the present building, so that it could be heated from the boiler now in use and could be connected by a passageway with the old building, it would seem that a great need of this school might

be met. A small building could be finished and furnished at moderate cost that would give the pupils going out from this school advantages that they now do not have.

THE SCHOOL PROPERTY

The school property is in very good condition. There will, of course, always be some needed repairs, but these, taken in charge at the proper time, need not make the cost of maintenance large for each year. The most important matter for your consideration is the problem of the Longfellow school building—as to whether it shall remain where it now is or be moved to a new lot.

Then, as I have already stated, something should be done to provide more room at the High school.

The school lot at Fort Hill should be enlarged so as to give the children a suitable playground. This small lot, barely large enough for the building and woodpile, was, I presume formerly considered ample for school purposes, as children were then sent to school to learn and not to play.

Today we see, with those who have carefully considered what the public schools should do for the children, the need of developing the body as well as the mind, and nothing better has been advised to give school children health and strength than out-of-door play. What I have said of this very small school lot at Fort Hill may well be emphasized when we speak of the size of the lot at the Blake school. This is indeed a small lot. The only possible place for the children to play in is the public road that passes so very near the school room door. One or two square rods is all that is within the enclosure not covered by the buildings. These school lots should be enlarged by acquiring some of the adjacent property. If this cannot be done at a reasonable cost, without doubt new and larger grounds could be bought in the vicinity of each of these schools and the

buildings moved. It certainly does seem too bad to restrict growing and active children to a playground of two or three square rods or to the public highway, when an acre of farm land can be bought at a small cost.

I am pleased to note that all the newer school buildings have grounds large enough for the children to play on.

School Census

The school census taken last April gave the number of persons residing in town of lawful school age 675.

The number returned last year was also 675.

The town of Gorham received from the state for the support of common schools this year, $5,483.07.

The amount received for the common schools last year was $5,129.88.

The amount received from the state this year exceeds that received last year by $353.19.

The number of pupils enrolled in the schools of Gorham (fall terms) of the years 1908 to 1913 inclusive:

1908	High school,	97	Common schools,	414	Total, 511
1909	"	80	"	417	" 497
1910	"	86	"	403	" 489
1911	"	91	"	425	" 516
1912	"	76	"	435	" 511
1913	"	88	"	437	" 525

Conclusion

In concluding this report I am mindful of the help and encouragement that I have received from those who have been interested in the work of education.

From the teachers has come a hearty response to whatever suggestions have been made for improvements in management and classwork.

The school board have given me loyal support in the performance of my duties, and the parents have expressed their interest in these schools in many helpful ways.

Respectfully submitted,

PRESCOTT KEYES,

Supt. of Schools.

With hope that is bright and fearless,
And courage for any fray,
Ere we enter in life's conflict
We gather here today.
Amid years of toil and pleasure
We've kept our spirits bright,
As earnestly we've labored
For wisdom, truth and right.

For examples set before us,
And ideals true and just,
Our thanks we gladly offer
To those we firmly trust.
Though rugged the rocks before us
Where right and truth hold sway,
We will neither faint nor falter,
But climb the upward way.

Auditor's Report

I hereby certify that I have carefully examined the accounts of the Selectmen, and the Treasurer, and Collector of the town of Gorham, Maine, for the year ending February 16th, 1915.

I have verified the receipts and expenditures, and find that orders for accounts presented against the town have been drawn in accordance with the various appropriations, and all payments are supported by proper vouchers, with a cash balance to the credit of the town as shown by the amount on deposit and in the office, amounting to $13,730.26.

The resources and liabilities have also been verified and found correct as appears in the Treasurer's report.

Respectfully submited,

CHARLES E. COBB,

Auditor.

Gorham, Maine, February 18, 19145.

Librarian's Report

The librarian presents the following statistics for the year ending January 31, 1915.

Total number of books accessioned during the year is 559; of which 252 were obtained by purchase, 24 by binding, 155 by gift and 128 by deposit. The accession book to date contains record of 8,709 volumes.

Of books purchased 4 vols., costing $5.06, have been credited to the Margaret P. Waterman fund; 95 vols., costing $139.83, to the State stipend; and 153 vols., costing $141.20, to town appropriation.

From these funds we have been enabled to buy 82 vols. adult fiction costing $85.34; 88 vols. adult non-fiction, costing $133.16 and 82 vols. young people's books, costing $67.59.

Twenty-three books have been withdrawn from circulation and sixteen books are missing. The net gain to the library therefore is 520 vols. During the year we have received, on loan, from the Maine State library one book, also from the Portland Public library one book.

We have sent to Branch libraries, as follows: to Little Falls, 191 books and a state traveling library of 50 books; to Frederick Robie school, 52 books; to North Street Ladies' Aid, 57 books; to North Gorham, 140 books and a state library of 50 books, also a copy of the St. Nicholas magazine for each month, commencing last November.

The circulation of books for the year was as follows:

Main library, bound magazines and other general works,	441
Philosophy	52
Religion	71
Sociology	243
Language	11
Natural Science	161
Useful Arts	120
Fine Arts	128
Literature	386
History	314
Travel	449
Biography	318
Fiction	10,870
Current magazines	1,960
Total	15, 524
Little Falls Branch, including Frederick Robie school	858
North Gorham, 450 books and 4 magazines	454
North Street Ladies' Aid	79
Total	16,915

A gain in circulation of 704 over last year.

Total number of registration cards signed during the year was 204, of which 97 were non-resident students' cards.

Total number of registrations to date 1,982

From February 2, 1914 to January 30, 1915 inclusive, the library was open 292 afternoons, 47 Saturday evenings and 4 Wednesday evenings. The Wednesday evening opening commenced on January 6th, last, and was instituted to increase as far as possible the service of the library to the community. Sufficient time has not elapsed, as yet, to show whether or not this extra service should be continued.

The library was closed for two weeks in August during which time the librarian made as thorough examination of the books as was possible.

On November 10th, the doors were closed and work suspended during the hour of the funeral services in Portland of Mrs. Mehitable C. P. Baxter, out of respect to her memory and in appreciation of her deep interest in this library, and as a mark of sympathy to her husband, Hon. James Phinney Baxter, the generous donor of our library and museum buildings.

During the past year, the gifts to the library have been many, too numerous to mention here in detail. Special mention however should be made of a few: "The Life and Times of Nathaniel Gould of Gorham," from the author, Wm. E. Gould of Brookline, Mass.; 8 vols. of the New International Encyclopedia, 20 vols. Book of Knowledge, (Children's Encyclopedia), 2 vols. Weeden's Economic History of New England, 7 vols. Rhodes' History of the United States, from Gorham Library Association; 32 vols. Philosophical and Scientific Works from James A. Magnussen; 103 vols. Maine Reports, among which were 3 vols. donated by John A.

Waterman, Esq., deposited by the town of Gorham; 3 vols. Documentary History of State of Maine, containing Baxter Manuscripts and Burrage's "The Beginning of Colonial Maine," deposited by the Maine State library.

Also the following from among miscellaneous gifts: palm for the reading room from Mrs. A. W. Lincoln; leaf from an East Indian book from Miss Sarah H. Warren; 1 Igorot pipe with brass bowl, 3 straw hats from town of Lias; 1 wooden hat partly covered with brass from town of Italka, 3 metal nose rings, from Miss Margaret P. Waterman to add to her valuable Igorot loan collection; the original letter of Rev. Solomon Lombard, the first settled minister in Gorham, written September 27, 1750, accepting the call of the proprietors of Gorhamtown to a settlement in the Gospel Ministry, together with a typewritten copy of the same, both neatly framed, presented to the town by Miss Emily L. Parker, his great-great-great-granddaughter.

The library constantly suffers from the careless handling of books, papers and magazines. Papers like the Delineator, Scientific American, Illustrated London News and Youth's Companion suffer particularly. We regret also to notice from time to time mutilations

which cannot be explained as acts of carelessness, and of which it is hard to realize that any one who frequents this library can be guilty.

The library needs at once additional shelving and additional furniture is also quite as necessary.

Respectfully submitted,

JOHN A. HINKLEY,

Librarian.

Baxter Museum

Report of the Baxter Museum Committee

The Baxter Museum was opened to the public, for its sixth season, on Wednesday, July 1st, and visitors were received on Wednesday and Saturday afternoons of July, August and September.

Many interesting gifts and loans have been added to the collection during the year and it is expected that the rooms in the third story of the house will be occupied this season.

The annual meeting of the committee was held at the Museum on Monday, June 8th.

Miss Ella R. Hale has been in charge of the Museum throughout the season.

The financial statement is to be found in the report of Charles W. Harding, town treasurer.

Respectfully submitted,

MARY McLELLAN LEWIS,

Secretary Baxter Museum Committee.

REPORT OF THE

Superintending School Committee

To the Citizens of Gorham:

There have been five meetings of the School Board, besides the union meeting at Westbrook, during the year.

Three school buildings have received the most extensive repairs.

At the Robie school some slate boards have been added, hard wood floors laid in the lower rooms and two rooms calcimined and tinted.

The interior of the Longfellow house has been tinted and varnished.

At the High school the main assembly room has been calcimined, varnished and walls tinted. A new drinking fountain has been installed which is giving good satisfaction. New toilets with concrete floors have been constructed, a much needed improvement. Temporary repairs have been made on the tower but more extensive and permament repairs are absolutely needed.

After a careful investigation we are fully convinced that larger appropriations in some departments will be needed in order to mantain the high standing of our schools.

We therefore recommend that the following amounts raised for the coming year.

Common schools	$2,500 00
High school	3,200 00
Books	350 00

Supplies and repairs	$1,000 00
Manual training	50 00
Salary of Superintendent	400 00
Tuitions	400 00

Respectfully submitted,

JOSEPH W. KNIGHT,
EDGAR F. CARSWELL,
ROSE C. JOHNSON,

Superintending School Committee.

Gorham, Feb. 10, 1915.

REPORT OF THE

Superintendent of Schools

To the Citizens of Gorham:

I am pleased to submit the following report of the condition and progress of the schools of Gorham for the municipal year ending February 10, 1915.

THE HIGH SCHOOL

The enrollment in the Gorham High school at the opening of the fall term was 88; the number registered in the fall term of 1913 was 88. The number of pupils enrolled, resident of other towns, was 12. The tuition charge is $20 per year and there has been collected for high school tuitions the past year $172.20.

This school is in good condition. It is well organized, well disciplined and well taught. The school spirit is excellent, and the harmony between pupils and teachers worthy of remark.

The class graduated last June numbered nineteen. Of these 3 entered Bowdoin college, 1 the University of Maine, 1 Simmons college, and 10 the Gorham Normal school. The present senior class numbers 20, and the class entering last September numbered 23.

In my report of this school one year ago, I called your attention to the urgent need of better laboratory accommodations. Some provision should be made the coming year to furnish your High school with a better and a more complete equipment for laboratory work,

as well as suitable rooms in which the pupils may work out for themselves the many problems that appear in the study of the sciences.

Another matter that should receive your attention is the very poor lighting of the rooms of the high school building. It seems to your superintendent that the architect who designed this building was more than thoughtful of space for blackboards than for sufficient windows to properly light the rooms.

By careful measurement it is found that pupils in the large study room are receiving about one-third the light that they should receive, or might receive, if the number of windows were sufficiently increased. This estimate is based on the relative lighting allowed by architects today in planning school buildings and school rooms.

This large room measures 40 ft. by 39 ft. and is now lighted by six windows, three on the right hand side and three on the left. Each window measures 6 ft. 4 in. by 2 ft. 8 in.

For the same reason the lighting of the three class rooms is not satisfactory. That pupils working under such unfavorable conditions are compelled to use glasses at an early age, and are often afflicted with severe headaches, due to eye strain, should not be a wonder.

Why should they not have what free light they are entitled to? What is the remedy for this condition? More windows.

A few years ago an attempt was made to improve the lighting of the main room by installing a few incandescent lamps to be used on dark days. These lamps do a great deal of good, but such lighting is not satisfactory.

THE BABB SCHOOL

The School Board, at a meeting held last June, voted to close this school for the ensuing year, as Gorham had but three pupils attending. It was also voted to transport these three pupils to another school. The school officials of Buxton and Scarboro, feeling that it would be much to the advantage of some of the pupils of their towns to have this school kept open, asked that it be continued as a union school. A conference was held by the superintendents of the three towns, and the proposition was presented that the school be continued and the total expense be divided in proportion to the number of pupils attending. This proposition was satisfactory to the Gorham School Board, and by vote this school was opened for the school year.

The enrollment shows that three pupils reside in Gorham, eight are from Buxton, and three from Scarboro. Miss Blanche G. Libby, who has taught in Gorham for several years, is the teacher.

WHITE ROCK SCHOOL

The White Rock school numbered twenty-eight in September 1913, but at the opening of the fall term of 1914 the enrollment had increased to forty-one. This school being too large for one teacher by reason of the many classes, it was considered advisable to employ an assistant to teach the lower grades.

TRANSPORTATION

It has been necessary to expend quite a sum of the money raised, by taxation for the support of common schools, to transport pupils residing at a considerable distance from school.

At the Longfellow nearly all the pupils are transported, and the cost for the last municipal year, as shown by the report of the treasurer, amounts to more than two hundred dollars. The reasons for this large expenditure were given in my last report, and need not be repeated in this, since at the annual town meeting this matter was thoroughly considered.

In some other instances the transportation bills have also been large. Pupils, residing more than one and one-half miles from the school house, are allowed something for transportation, up to the time they are twelve years old, after which time the parent provides transportation.

While the transportation charges have been considerable this year, the expense to the town has been much less than it would have been had it become necessary to establish more schools to accommodate those pupils now being transported.

REPAIRS

The repairs made on the school property during the year have, for the most part, kept the buildings in very good condition.

The coming year quite extensive repairs to the tower of the High school building will be necessary. The woodwork at the base of the tower is very badly decayed so that the water comes through the roof in many places. To make this repair will be quite expensive as the finish is elaborate.

This building was erected nearly fifty years ago, and the mouldings and finish were all made by hand. Mouldings made by machines today are of an entirely different pattern, so it seems that to replace the decayed finish must require a great deal of hand labor which of course is expensive.

I would recommend that the Wescott school building be considerably improved during the summer vacation. New hard wood floors, slate blackboards, and new single desks are needed for this school.

The room on the ground floor of the Frederick Robie, used for the primary school, should be supplied with new single desks, as the old double desks are very uncomfortable for small children, besides making it difficult for the teacher to do her best work when the pupils are sitting two in one seat. This room also should have some slate blackboards.

At the Longfellow some grading should be done around the entrances to the school room. The children playing about the door have worn the earth away so that after a heavy rain these hollows are filled with water, and the pupils often are obliged to sit in the school room with wet feet.

The driveways at several of the school properties should be put in good condition, so that teams may be driven to the school yard and buildings without danger of being overturned on leaving the highway.

SCHOOL CENSUS

The school census taken last April gave the number of persons residing in town between the ages of five and twenty-one years as 666. The number returned last year was 675. The town received from the state for aid to the common schools this year $5,372.07. The amount received from the state last year for common schools was $5,483.07. The amount received this year is less than that received last year by $111.00.

TEACHERS

We were obliged to fill several vacancies in the teaching force during the summer.

At the High school two new teachers have been employed, Miss Gail A. Taggart and Miss Mildred I. Goudy. Miss Taggart teaches French and English. She is a graduate of Colby College and had taught three years in the Kennebunk High school. She succeeds Miss Margaret Lincoln. Miss Goudy has taught the classes in English and History formerly taught by Miss Bertha Bangs, who was granted a year's leave of absence. Miss Goudy is a Bates graduate and she had taught successfully before coming to Gorham.

At North Gorham Miss Carrie H. Russell succeeded Miss Elizabeth Pillsbury. Miss Easler, who taught the Blake school two years, was followed by Miss Alice O. Murch. Miss Nellie Gustin, who taught at the Longfellow last year, was succeeded by Miss Grace E. Littlefield of Wells, Maine. Miss Blanche G. Libby was given the Babb school to succeed Miss Helen Reny, and the Fort Hill school is being taught by Miss Ethel Walker. The new teacher at the White Rock school is Miss Mabel F. Doyle of Yarmouth, Maine.

In concluding this report I wish to emphasize what was said in a former report relative to the wages of teachers. In comparison with wages paid by other towns to teachers, Gorham is not paying high wages. The tabulation included in this report shows that nearly all the teachers in our schools are receiving ten dollars per week.

One year ago we were able to fill vacancies by offering to beginners nine dollars per week for the first year. We were not able to do so this year, unless we had accepted teachers who could not rate with those who had held the positions to be filled.

Teachers' wages throughout the state have been advancing steadily for a number of years, and will con-

tinue to advance. The recent graduates of the Normal school, who took positions in September, are receiving on an average of $11.40 per week.

I doubt very much if the citizens of Gorham, who have children in these schools, would feel satisfied should the school officials employ teachers who could not command average wages.

A good teacher usually gives satisfaction to all concerned in the school. Gorham ought to be able to secure the best of teachers. Towns that offer the larger salaries are in a position to select better teachers than towns paying low salaries.

It is my belief that the year now closing has been a prosperous one for the schools of Gorham, taken as a whole. Some schools have been excellent, while others have not measured up to as high a standard as we could have wished. Such is usually the case when it becomes necessary to make changes in teachers.

There has been but little sickness among the pupils, and the average attendance has been very good. Good discipline is a characteristic of all these schools, and the effort to make improvement in studies has been gratifying.

I have had the co-operation of the teachers in my efforts to improve the work of the schools, and the School Board has ever been ready to give me support in the administration of the duties of my office. It has been no uncommon thing for citizens to express opinions in commendation of the good work being done in these schools.

Respectfully submitted,

PRESCOTT KEYES,

Superintendent of Schools.

Words by Leon J. Weymouth Music by Archibald J. Rich

Happy school days now are ended,
And with half a smile, a sigh,
Joy and sorrow strangely blended,
Once again we say good-bye.

Time is beck'ning, Duty calling
To the nineteen here today
To assist the weak and falling,
As we journey on life's way.

When all other joys shall perish
In the grave of years gone by,
Still fond memories we will cherish
Of happy days at Gorham High.

And this promise to us given,
By our motto and our God,
That in Earth as well as Heaven
"As the labor, the reward."
